Reaching Your Goals

Everyone has goals although we may not think about them. Goals are the things we want, things we try to achieve.

Financial goals can be:

Short Term: Meeting your basic living expenses, such as monthly rent and food.

Medium Term: Things you want to buy in the near future. Examples are a car or a refrigerator.

Long Term: These goals are what you want in the next 5, 10, 20 or more years. Buying a home, planning for college education or retiring comfortably are examples.

Steps to Reaching Your Goals

► Write down your goals. Be very detailed.
► Price your goal. How much money, time, and energy will you need?
► Set an exact date for reaching your goal.
► Develop a plan for reaching your goal. How much money or energy can you put into reaching that goal?
► Begin to work towards your goal today. Think of new ways to reach your goal.
